

## LED LIGHT FCC COMPLIANT

FCC Verification Tested  
Certificate Of Conformity  
PRSZ20101002E

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this device.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -Consult the dealer or an experienced radio/ TV technician for help.

## LIMITED WARRANTY

SUNNYWAY ENTERPRISES INC warrants this aquarium product to be free from defects in material and workmanship under normal use and service and according to the provisions as specified in the accompanying assembly and operating instructions, for a period of 1 year from date of purchase.

This warranty does not cover and SUNNYWAY ENTERPRISES INC is not liable for the cost of repair or replacement of parts which have been subject to misuse, negligence, accident, improper installation, damage during shipment or handling, normal deterioration due to wear and exposure or defects caused by unauthorized parts or modification.

UNDER NO CIRCUMSTANCES WILL SUNNYWAY ENTERPRISES INC BE LIABLE FOR ACCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING BUT NOT LIMITED TO LOSS OF PROPERTY OR EQUIPMENT.

Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitation on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you. This warranty gives you the legal rights, which vary from state to state.

WARRANTY HELP, REPLACEMENT PARTS, OR TECH SUPPORT, IF ANY COMPONENTS ARE DAMAGED OR MISSING DO NOT RETURN TO RETAILER

## AQUARIUM SET UP INSTRUCTIONS

For Household Use Only  
Children under the age of 13 should be supervised by an adult with the setup, maintenance and fish care

AP360A-3FFP

AQ360-34C

## 1. Your Aquarium

People of all ages enjoy looking at aquariums. Aside from the belief that an aquarium is beautiful, many also believe owning an aquarium can be relaxing, rewarding and a great conversation piece all at the same time. You will find you will have many enjoyable hours with your new aquarium and fish.

Included in your Aquarium Kit

1. 3G Fish Tank
2. Power Filter
3. Filter Cartridge
4. Full Cover
5. LED Light
6. Power Adapter

## 2. Important Instructions

Read This Section before operating this unit. For Household Use Only. Confirm your tank has not been damaged during shipping before you start the setup process. Completely install aquarium before operating. To avoid the unit plug or receptacle from getting wet, position the tank and stand to one side of a wall mounted receptacle to prevent water from dripping onto it.

A "Drip Loop" should be made as shown at right

DRIP LOOP

## 3. Tank Placement

Leave enough space in back of the aquarium to allow easy access to the filter and various electrical cords from the electrical equipment.

### Good places for your aquarium

On a table or aquarium stand that's capable of bearing the weight of your filled aquarium.

### Places to avoid

- Near direct sources of sunlight (e.g. windows), unwanted algae growth may occur.
- Near direct sources of heat or air conditioning (e.g. radiator, forced air vent).
- Around sources of noise (e.g. stereo speakers, TV).
- Drafty areas.
- Do not place aquarium on any good surface that can be damaged by water.
- Where water can come in contact with other electrical appliances.

## 4. Rinse Gravel and Decor

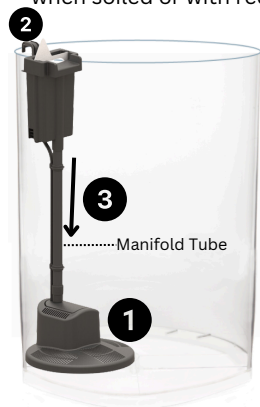

Rinse aquarium, filter, stones, plastic plants, and other decorations under running tap water. Place gravel in a colander or new bucket and rinse under running tap water until water runs clear. Never clean aquarium, decorations, or filter with household soaps as they can harm your fish.

\*Gravel and Decorations are not included with aquarium kit

## 5. Filter Installation

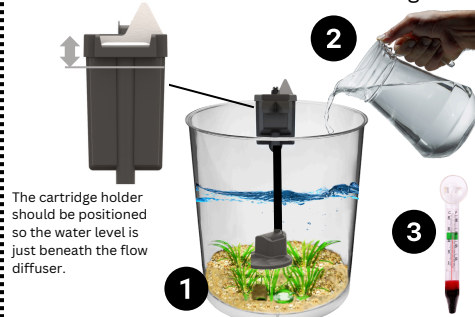

1. Place the base (sump portion) of the filter on the bottom of the tank and position it towards the back of the tank (do not cover the base with gravel, leave it totally exposed).
2. Hook the mounting bracket onto the rim of the tank.
3. Insert and align the extension tube onto the manifold tube and push downwards.
4. Insert the filter cartridge into the filter. Replace filter cartridge every 3 to 4 weeks, when soiled or with reduced filter flow.

Only use gravel or pebbles larger than 1/2 inch diameter. Aquarium sand or fine gravel can impede filter flow.

## 6. Adding Water

1. Add the gravel and decorations to the tank. Do not cover filter's base (sump) entirely. Only use gravel or pebbles larger than 1/2 inch diameter.
2. Fill the aquarium with water to within 1-1/2 inches from the top of the tank. Treat water with a tap water conditioner to remove chlorine from tap water that can be harmful to your fish.
3. Confirm water temperature in the aquarium has reached room temperature before adding fish. Add a heater if keeping tropical fish.
4. To turn filter on, insert filter's power cord plug into an electrical receptacle. Allow the tank to run for 24 hours before adding fish.

The cartridge holder should be positioned so the water level is just beneath the flow diffuser.

## 7. LED Light

1. Plug the power adapter into the wall receptacle and insert the other end of the connector cable into the LED light port.
2. To turn on LED light press the blue button switch on top of the light.
3. Continue to press the blue button until the desired color is located. There are seven colors to choose depending on time of day or color preference: Daylight White, Amber, Aqua, Blue, Green, Purple, and Red.

TIMER SELECTION SWITCH with 3 settings you can select:

- ON...Continuous On
- 4H....4 Hour Duration
- 8H....8 Hour Duration

The Timer Selection will repeat every 24 hours until the unit is turned off or the power supply is disconnected. Choose the time of day you initially prefer the light to come on - for example: turn the light on at 6pm - the light will turn on at 6pm every day to the length of time you have set 4 hours or 8 hours. Initially you must turn the light on at the time of day desired, when activated the unit will come on and then turn off at the chosen time each subsequent day until the unit is turned off or the power supply is removed.

## 8. Adjusting Filter Flow

1. To adjust filter flow to preferred output level, unplug power filter from electrical receptacle. Remove power filter from tank and turn upside down.
  2. Move selector switch to the left to reduce flow output and to the right to increase flow output.
  3. Reassemble filter, place back into tank and insert filter's power cord plug back into the electrical receptacle.
- Replace the filter cartridge every 3 to 4 weeks or with reduced filter flow to keep filter operating optimally. Power filter uses SW Product S replacement cartridges (3 pack SWP10FC-30 and 6 pack SWP10FC-60) available online at major retailers.
